There are many areas in which a school must expand. In this expansion many people play important roles. Meadow has been fortunate to have had one such person who not only has set standards of high goals for the future, but also has worked diligently in many phases to see that these goals become realities. It is the uniring efforts, contributions, and willingness to each individual student that causes us to search for an expression that will reveal our appreciation to this person. A large amount of the progress of our school in all its phases can be accredited to this devoted one. Because of our deep appreciation for his self-sacrifice and hard work and because of our understanding the importance of his goals and its realizations, we dedicate the 1961 Tescorora to Mr. John D. Karnodie.

## HAT-CHECK GIRLS

On May 6, 1969, the Junior Class honored the Senior Class with an annual banquet and prom. It was truly "An Evening in Hawaii" as the evening was accented with Hawaiian styles and customs. The waiters, waitresses, and hat-check girls looked very sharp dressed as native Hawaiians scurrying around to fulfill their tasks. This gay evening was another happy event that we have added to the memories of our high school days.
